# Gojira Fine Chemicals, LLC SAFETY DATA SHEET

Revision Date 04/15/2019 Print Date 08/08/2019

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

# **1.1** Product identifiers

Product name	<sup>:</sup> Magnesium Sulfate Heptahydrate
Product Number	: MS1004
CAS-No.	: 10034-99-8

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Synthesis of substances

# **1.3** Details of the supplier of the safety data sheet

Company	:	Gojira Fine Chemicals, LLC 5386 Majestic Pkwy, Ste. 7 Bedford Heights, OH 44146
Telephone Email Fax	:	440-252-5397 docsupport@gojirafc.com 888-211-5523

# **1.4 Emergency telephone number**

Emergency Phone # : 800-255-3924 (ChemTel Contract# MIS7318160

# **SECTION 2: Hazards identification**

# 2.1 Classification of the substance or mixture

Not a hazardous substance or mixture.

# 2.2 GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

# 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS - none

# SECTION 3: Composition/information on ingredients

3.1	<b>Substances</b> Synonyms	:	Epsom salts
	Formula	:	MgO <sub>4</sub> S · 7H <sub>2</sub> O
	Molecular weight CAS-No.		246.47 g/mol 10034-99-8

EC-No.

Component	Classification	Concentration	
Magnesium(II) sulfate heptahydrate			
		<= 100 %	

# SECTION 4: First aid measures

# 4.1 Description of first aid measures

# If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration.

# In case of skin contact

Wash off with soap and plenty of water.

# In case of eye contact

Flush eyes with water as a precaution.

# If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water.

- **4.2 Most important symptoms and effects, both acute and delayed** The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11
- **4.3 Indication of any immediate medical attention and special treatment needed** No data available

# **SECTION 5: Firefighting measures**

# 5.1 Extinguishing media

**Suitable extinguishing media** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

- **5.2** Special hazards arising from the substance or mixture Sulphur oxides, Magnesium oxide
- **5.3** Advice for firefighters Wear self-contained breathing apparatus for firefighting if necessary.
- 5.4 Further information No data available

# **SECTION 6:** Accidental release measures

- **6.1 Personal precautions, protective equipment and emergency procedures** Avoid dust formation. Avoid breathing vapours, mist or gas. For personal protection see section 8.
- **6.2 Environmental precautions** No special environmental precautions required.

- **6.3 Methods and materials for containment and cleaning up** Sweep up and shovel. Keep in suitable, closed containers for disposal.
- **6.4** Reference to other sections For disposal see section 13.

# **SECTION 7: Handling and storage**

# 7.1 Precautions for safe handling Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

# **7.2** Conditions for safe storage, including any incompatibilities Keep container tightly closed in a dry and well-ventilated place. Storage class (TRGS 510): 13: Non Combustible Solids

# 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

# **SECTION 8: Exposure controls/personal protection**

# 8.1 Control parameters

# **Components with workplace control parameters** Contains no substances with occupational exposure limit values.

# 8.2 Exposure controls

# Appropriate engineering controls

General industrial hygiene practice.

# Personal protective equipment

# Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

# **Skin protection**

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Full contact Material: Nitrile rubber Minimum layer thickness: 0.11 mm Break through time: 480 min Material tested:Dermatril® (KCL 740 / Aldrich Z677272, Size M)

Splash contact Material: Nitrile rubber Minimum layer thickness: 0.11 mm Break through time: 480 min Material tested:Dermatril® (KCL 740 / Aldrich Z677272, Size M) data source: KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail sales@kcl.de, test method: EN374

If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.

# **Body Protection**

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

# **Respiratory protection**

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

# **Control of environmental exposure**

No special environmental precautions required.

# **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

a)AppearanceForm: Fine crystals and fragments Colour: whiteb)OdourNo data availablec)Odour ThresholdNo data availabled)pH5.0 - 8.0 at 50 g/le)Melting point/freezing pointNo data availablef)Initial boiling point and boiling rangeNo data availableg)Flash point()No data availableh)Evaporation rateNo data availablei)Flammability (solid, gas)No data availablej)Upper/lower flammability or explosive limitsNo data availablek)Vapour pressure< 0.133 hPa at 20 °C (68 °F)l)Vapour densityNo data availablem)Relative density1.67 g/cm3n)Water solubility246.48 g/l at 20 °C (68 °F) - completely solubleo)Partition coefficient: n-octanol/waterNo data available		-

# 9.2 Other safety information

Bulk density 0.009 kg/m3

# **SECTION 10: Stability and reactivity**

# **10.1 Reactivity**

No data available

### 10.2 Chemical stability Stable under recommended storage condition

Stable under recommended storage conditions.

- 10.3 Possibility of hazardous reactions No data available
- **10.4 Conditions to avoid** No data available
- **10.5 Incompatible materials** Strong oxidizing agents

# **10.6 Hazardous decomposition products**

Hazardous decomposition products formed under fire conditions. - Sulphur oxides, Magnesium oxide Other decomposition products - No data available In the event of fire: see section 5

# **SECTION 11: Toxicological information**

# **11.1** Information on toxicological effects

# **Acute toxicity**

No data available Inhalation: No data available Dermal: No data available No data available

# Skin corrosion/irritation No data available

Serious eye damage/eye irritation No data available

**Respiratory or skin sensitisation** No data available

Germ cell mutagenicity No data available

# Carcinogenicity

- IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

# **Reproductive toxicity**

No data available No data available

# **Specific target organ toxicity - single exposure** No data available

## **Specific target organ toxicity - repeated exposure** No data available

# Aspiration hazard

No data available

# **Additional Information**

RTECS: OM4508000

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Stomach - Irregularities - Based on Human Evidence Stomach - Irregularities - Based on Human Evidence

# **SECTION 12: Ecological information**

# **12.1 Toxicity**

# 12.2 Persistence and degradability

**12.3 Bioaccumulative potential** No data available

# **12.4 Mobility in soil** No data available

# **12.5** Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

**12.6 Other adverse effects** No data available

# SECTION 13: Disposal considerations

# 13.1 Waste treatment methods

# Product

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

# **Contaminated packaging**

Dispose of as unused product.

# **SECTION 14: Transport information**

# DOT (US)

Not dangerous goods

# IMDG

Not dangerous goods

# ΙΑΤΑ

Not dangerous goods

# SECTION 15: Regulatory information

# SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

# SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

# Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

# Pennsylvania Right To Know Components

Magnesium(II) sulfate heptahydrate	CAS-No. 10034-99-8	Revision Date
New Jersey Right To Know Components Magnesium(II) sulfate heptahydrate	CAS-No. 10034-99-8	Revision Date

# **California Prop. 65 Components**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

# **SECTION 16: Other information**

# **Further information**

The above information is believed to be accurate and represents the best information currently available to Gojira Fine Chemicals. However, we make no warranty or merchantability or any other warranty, express or Implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall Gojira Fine Chemicals be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if Gojira Fine Chemicals has been advised of the possibility of such damages.
