

## Specification

### N,N-Diethyl-P-Phenylenediamine Oxalate

**Catalog Number:** DP1006  
**CAS Number:** 62637-92-7  
**Synonyms:** p-Amino-diethylaniline oxalate  
**Molecular Formula:**  $[(C_2H_5)_2NC_6H_4NH_2]_2(COOH)_2$   
**Molecular Weight:** 418.55

| Test               | Specification                                                 |
|--------------------|---------------------------------------------------------------|
| Description:       | Off-white to beige to pale yellow to light purple gray powder |
| Assay (Titration): | 85 % minimum                                                  |
| Identification:    | Passes Test                                                   |
| Moisture:          | 1.0% maximum                                                  |
