

## Specification

### Lead Chloride

**Catalog Number:** LC1005  
**CAS Number:** 7758-95-4  
**Synonym(s):** Lead (II) chloride; Lead Dichloride;  
Plumbous chloride  
**Molecular Formula:** PbCl<sub>2</sub>  
**Molecular Weight:** 278.10

| Test                        | Specification                           |
|-----------------------------|---|
| Appearance:                 | White to Off-White Powder and/or Chunks |
| Assay (Titration):          | 97.5 – 102.5 %                          |
| Insoluble Matter:           | 0.05% maximum                           |
| Nitrate (NO <sub>3</sub> ): | 0.005% maximum                          |
